

Drone Noise Cancelling Device

Budget Report Estimated

#	Component	Description	Ref	Qty	Est. Unit Price (LKR)	Total (LKR)
1	MEMS Microphones SPH0641LU4H-1	I2S digital mic, lightweight and low power	https://www.elecrow.com/digital-mems-microphone.html?idd=2	10 (ANC) + 2 (speech) = 12	715.5	8586
2	Miniature Speakers 1W 8Ω speakers	For emitting anti-noise (compact and directional)	https://tronic.lk/product/8-ohm-1w-speaker-2-25-inch	10 (ANC) + 2 (voice) = 12	50	600
3	I2S Audio Amplifier Breakout Board	For driving each speaker from I2S	https://www.digikey.com/en/products/detail/analog-devices-inc/EVAL-ADAU1966Z/2773670	1	228600	228600
4	I2S Amp Chip	ADAU1966	https://www.digikey.com/en/products/detail/analog-devices-inc/ADAU1966WBSTZRL/2780670	1	4266	4266
5	DSP Chip or MCU Teensy 4.1	MCU with I2S and DSP support	https://www.sparkfun.com/teensy-4-1.html	2	9450	18900
6	Microphone Breakout Board	If MEMS mics are not pre-soldered	https://www.elecrow.com/digital-mems-microphone.html?idd=2	10	240	2400
7	Power Supply (5V–3.3V step-down converters)	For regulated supply to mic/amp modules	Buck converter and LDO- AMS1117-3.3	1	1000	1000
8	Custom lightweight PCB / Flex PCB	For compact integration	JLC PCB	5	2000	10000
9	3D Printed or carbon-fiber frame mount	To hold mics/speakers around drone		1	10000	10000
10	Cables, headers, heat shrink, glue, wires	Assembly & connectivity		-	2000	2000
11	Drone DJI Mavic AE86 PRO Max		https://www.kapruka.com/buyonline/ae86-pro-max-drone-with-displa/kid/ef_pc_elec0v2233pod00006	1	148000	148000
11	SD card or Flash Storage	For logging/test playback		1	1500	1500

Total	435852 LKR
